

i want my weather on xmsrwhy does everyone want to get there hands in on
something good
why do americans run everthing into the ground.
a rule for this a rule for that
a law for this and a law for that.
i pay for xm leave it alone
i pay not to get aggravated with boring radio
whats wrong with hearing the weather constantly
i travel a lot. it helps that i know what is going on down the road.
leave it alone with your rules,laws,and regulations.what are you just looking
for another way to make money
another way to stick your hands in my pockets.
the nab can kiss my _ _ _
leave it alone.
its just a weather feed.
they thought of it and i think its great.
what does it matter anyway.
who cares where i get my weather from.
weather changes constantly.should i sit home and watch the weather channel and
never leave the house.
leave it alone
leave it alone
